

Each bird control job is unique - Before initiating any bird control program, it is imperative to consider all factors affecting a particular job. The following survey provides a guideline to help determine proper steps to be taken for effective control and determination of cost.

BIRD CONTROL SURVEY SHEET

1. Name and Location of Job Site: _____

2. observations:

Species observed:

Date: _____ Hour: _____
Target Birds:
Species _____ Number _____
Species _____ Number _____

Non-Target Birds:
Species _____ Number _____
Species _____ Number _____

Date: _____ Hour: _____
Target Birds:
Species _____ Number _____
Species _____ Number _____

Non-Target Birds:
Species _____ Number _____
Species _____ Number _____

Date: _____ Hour: _____
Target Birds:
Species _____ Number _____
Species _____ Number _____

Non-Target Birds:
Species _____ Number _____
Species _____ Number _____

Nature of Habitat:

(1) Target Birds:

Species _____
Nesting _____ Roosting _____
Feeding _____ Loafing _____
Species _____
Nesting _____ Roosting _____
Feeding _____ Loafing _____

(2) Non-Target Birds:

Species _____
Nesting _____ Roosting _____
Feeding _____ Loafing _____
Species _____
Nesting _____ Roosting _____
Feeding _____ Loafing _____

(3) Food Sources:

Type _____
Amount Available _____
Location _____
Feeding Times _____
A.M. _____ P.M. _____

(4) Water:

Location _____
Amount Available _____

(5) Structural Information:

Types of Structures _____

Dimensions of Structures _____

Special Equipment Required

Observation Time Required:

Travel Time: To Site _____ From Site _____
Estimated Time at Site _____
Number of Visits _____

Analysis of Problem:

- (1) _____ Creating annoying noise.
